THE METHODIST HOME OF DC EARNS PERFECT FIVE STAR RATING

Chevy Chase, DC –

US News and World Report in their “Best Nursing Homes Rankings” acknowledged the Methodist Home of DC with a perfect five star rating. Their rankings are based on annual unannounced site visits and surveys conducted by CMS, the Center for Medicare and Medicaid Services.

The Methodist Home’s skilled nursing care facility earned an overall five star rating and achieved a perfect five star score in each of the three main sub categories: Health Inspections, Nurse Staffing and Quality Measures. The Methodist Home was the only skilled nursing facility in the metropolitan DC region to receive the perfect score.

“Our Nursing Facility staff has done an excellent job ensuring that every resident is receiving the best possible person-centered care” commented Sandy Douglass, CEO, of The Methodist Home of DC & Forest Side, “This honor, however, is not just for our great nursing department but reflects the efforts of our entire team including Social Work, Activities, Maintenance, Housekeeping, Dining Services and Admissions. We are fortunate to have such a highly professional and dedicated staff.”

The Methodist Home’s skilled nursing care facility provides short term, post hospitalization, sub-acute rehabilitation and long-term care. In addition, the organization operates an Assisted Living program and a highly specialized memory care facility.

The Methodist Home of DC is a non-profit organization, has been serving seniors since 1889 and since 1926 in its present location at 4901 Connecticut Avenue, NW. The Forest Side campus, a specialized memory care assisted living, was opened in March 2011.
